

Lanny Brown, Director
Galveston County Community Services

I have lived in League City for 8+ years. Married with 3 active children.

I have spent over 20 years working with families offering programs to youth to develop their character and fitness. The position that I hold now with Galveston County allows me to participate in the development of programs that can save the lives of our constituents. As we continue the attempt at economic recovery, the families and individuals that have the need for health care and do not have the means or abilities to pay for it, will continue to grow. I am eager to work on the board as we explore ways to leverage the available money from the various governmental entities to provide the care that these individuals need.
