ORDER OF THE GALVESTON COUNTY HEALTH DISTRICT ADOPTING RULES
FOR ON-SITE SEWAGE FACILITIES

RECITALS

 Whereas, the Texas Commission on Environmental Quality has established Design
Criteria for on-site sewage facilities to provide the citizens of this State with adequate public
health protection and a minimum of environmental pollution;

 Whereas, the Legislature has enacted legislation, codified as Texas Health and Safety
Code, Chapter 366, to eliminate and prevent health hazards by regulating and properly planning
the location, design, construction, installation, operation, and maintenance of on-site sewage
disposal systems;

 Whereas, Chapter 366 of the Texas Health and Safety Code authorizes a local
governmental entity to implement and enforce rules to regulate the use of on-site sewage
disposal systems in its jurisdiction;

 Whereas, the use of on-site sewage facilities within the jurisdiction of the Galveston
County Health District (Health District) is or may cause pollution or is or may injure the public
health; and

 Whereas, notice was given of a meeting and public hearing to determine whether the
Galveston County Health District should enact an order regulating the use of on-site sewage
facilities in the jurisdiction of the Health District;

 Whereas, said meeting and public hearing were held in accordance with the notice
thereof, and the evidence and arguments there presented have been considered by the Galveston
County Health District; and

 Whereas, the Galveston County Health District has considered the matter and deems it
appropriate to enact an order adopting rules regulating on-site sewage facilities to abate or
prevent pollution or injury to public health within the jurisdiction of the Galveston County
Health District.

NOW THEREFORE, THIS ORDER OF THE GALVESTON COUNTY HEALTH
DISTRICT ADOPTING RULES FOR ON-SITE SEWAGE FACILITIES, ENTITLED
ON-SITE SEWAGE FACILITIES, IS HEREBY ADOPTED AS FOLLOWS:

TERMS:

1. Recitals. The Recitals set forth above are true and correct.

2. Conflicts. All prior orders or parts of orders of the Galveston County Health
District (Health District) not consistent with or in conflict with the provisions of this Order are
hereby repealed.
3. **Adopting Texas Health & Safety Code Chapter 366.** This Order hereby adopts Chapter 366 of the Texas Health & Safety Code, as amended, entitled On-Site Sewage Disposal Systems. The Health District clearly understands that there are technical criteria, legal requirements, and administrative procedures and duties associated with regulating on-site sewage facilities and will fully enforce Chapter 366 of the Texas Health and Safety Code and Chapters 7 and 37 of the Texas Water Code (TWC) and associated rules referenced in Section 7 of this Order.

4. **Area of Jurisdiction.** This Order shall apply to all areas lying within the jurisdiction of the Galveston County Health District except for those areas under an existing Order, Ordinance or Resolution and those areas which may be under the responsibility of the corresponding TCEQ Regional Office. The Health District may regulate OSSF matters in all areas within its area of jurisdiction without an existing Order, Ordinance or Resolution.

5. **On-Site Sewage Facility Rules.** Any owner of a building discharging sewage into an on-site sewage facility within the jurisdictional area of the Health District must comply with this Order. All permits issued under this Order must also comply with the Rules adopted in Section 6 of this Order.

6. **On-Site Sewage Facility Rules Adopted.** The Rules, Title 30 Texas Administrative Code (TAC) Chapter 30, Subchapters A and G, and Chapter 285, promulgated by the Texas Commission on Environmental Quality for on-site sewage systems are hereby adopted, and all officials and employees of the Galveston County Health District having duties under said Rules are authorized to perform such duties as are required of them under said Rules.

7. **Incorporation by Reference.** The Rules, 30 TAC Chapters 30 and 285 and all future amendments and revisions thereto are incorporated by reference and are thus made a part of this Order.

8. **Amendment for More Stringent Rules.** The Galveston County Health District, wishing to adopt more stringent rules for its On-site Sewage Facilities Order understands that the more stringent local rule shall take precedence over the corresponding Texas Commission on Environmental Quality requirement. The more stringent rules adopted by the Galveston County Health District are:

   a. All on-site sewage facilities regardless of the size of the property on which they are installed must be permitted by the Health District.

   b. All construction of any type of on-site sewage facility shall be by a Licensed Installer. There shall be no property owner/homeowner installations unless the property owner/homeowner is also a Licensed Installer.

   c. Any single family dwelling, commercial or institutional facility, multi-unit residential development, recreational vehicle park or any other structure occupied any part of the day or night shall be connected to an on-site sewage facility or other approved method of wastewater treatment and disposal.
d. The groundwater evaluation performed in association with any site evaluation for subsurface OSSF systems proposed for installation on Galveston Island or Bolivar Peninsula, must be evaluated for accuracy by a Health District Designated Representative prior to construction authorization being issued. A soil pit, needed for the evaluation, must be prepared by the property owner or owner’s agent to the specifications required by the Health District in the area of the proposed disposal field. An evaluation fee, set by the Health District, must be paid prior to Health District staff performing the evaluation.

e. No homeowner/property owner shall be allowed to perform any maintenance on an on-site sewage disposal system using aerobic treatment unless the homeowner/property owner is a certified maintenance provider for that aerobic unit, registered with the Texas Commission on Environmental Quality, and works for a certified maintenance company.

Exceptions to the prohibition on homeowner maintenance on property that they own also includes:

1. Homeowners currently approved under HB 2510 [79(R)] may continue to maintain their own aerobic treatment system until they no longer own the property on which the aerobic system is installed, or
2. Homeowners that provide documentation of having successfully completed a course of at least 8 hours on maintaining on-site aerobic treatment units approved by the TCEQ, or
3. Homeowners that provide documentation that they hold a Class D or higher Wastewater Treatment Operator License issued by the TCEQ.

An owner may not maintain an aerobic OSSF treatment plant for commercial, speculative residential or multifamily property.

Homeowners providing their own maintenance are required to submit the same testing and reporting documents that are required from certified maintenance providers.

9. **Duties and Powers.** The Office of Environmental Health Services of the Galveston County Health District is here-with declared the designated representative for the enforcement of this Order. The individuals who are the designated employees working in this program must be approved and certified by the Texas Commission on Environmental Quality before assuming the duties and responsibilities of the Designated Representative of the Galveston County Health District.

10. **Fees.** OSSF fees required for the enforcement of this Order shall be set by the Galveston County Health District and all fees shall be made payable to the Galveston County Health District. A fee of $10 will also be collected for each on-site sewage facility permit to be paid to the credit of the TCEQ Water Resources Management Account as required by the THSC, Chapter 367.
11. **Appeals.**

a. **Appeal.** Persons aggrieved by an action or decision of the designated representative may appeal such action or decision to the Director of Environmental Health Programs of the Galveston County Health District. Any such appeal shall be submitted in writing within ten (10) days of the action or decision being appealed. The Director of Environmental Health Programs will hear the appeal.

b. **Hearings.** The hearings provided for in this Order at the request of an aggrieved party shall be conducted by the Director of Environmental Health Programs. Based on the evidence presented at such hearing, the Director of Environmental Health Programs shall make a finding, and shall sustain, modify or rescind any notice or order considered in the hearing. The person requesting the hearing may appeal the decision of the Director of Environmental Health Programs to the Health Authority. The decision of the Health Authority is final.

12. **Enforcement Plan.** The designated representative may routinely inspect on-site sewage facilities to assure continued compliance with all applicable Rules.

a. The Galveston County Health District clearly understands that, at a minimum, it must follow the requirements in 30TAC § 285.71 Authorized Agent Enforcement of OSSF's.

b. This Order adopts and incorporates all applicable penalty provisions related to on-site sewage facilities, which include but are not limited to those found in Chapters 341 and 366 of the Texas Health and Safety Code, Chapter 7, 26 and 37 of the Texas Water Code and 30 TAC Chapters 30, Subchapters A and G, and Chapter 285.

c. A person commits an offense whenever an act is prohibited or is made or declared to be unlawful, or whenever in this Order the doing of an act is required or the failure to do an act is declared to be unlawful. Each day of a continuing violation is a separate offense.

d. Any offense under this Order or of a regulation adopted by this Order is a Class C Misdemeanor unless otherwise enhanced.

13. **Severability.** It is hereby declared to be the intention of the Galveston County United Board of Health of the Galveston County Health District that if any phrase(s), clause(s), sentence(s), paragraph(s), or section(s) of this Order should be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs, or sections of this Order, since the same would have been enacted by the Galveston County United Board of Health without incorporation into this Order of such unconstitutional phrases, clause, sentence, paragraph, or section.
14. **Relinquishment of Order.** If the Galveston County Health District, Texas, decides that it no longer wishes to regulate on-site sewage facilities in its area of jurisdiction, the Health District, as the authorized agent, and the Texas Commission on Environmental Quality shall follow the procedures outlined in 30 TAC § 285.10 (d) (1) through (4).

After relinquishing its OSSF authority, the authorized agent understands that it may be subject to charge-back fees in accordance with 30 TAC § 285.10 (d) (5) and § 285.14 after the date that delegation has been relinquished.

15. **Effective Date.** This Order shall be in full force and effect from and after its date of approval as required by law and upon the approval of the Texas Commission on Environmental Quality.

**IT IS SO ORDERED.**

PASSED AND APPROVED the 29 day of May 2013

APPROVED:

[Signature]

Chairman,
Galveston County United Board of Health

Signed before me this 29 day of May, 2013.
