

GALVESTON COUNTY HEALTH DISTRICT
Coastal Health & Wellness, Public Health Programs, Galveston Area Ambulance Authority
P.O. Box 939, La Marque, TX 77568 (409) 938-2211

School Administrator,

The Galveston County Health District wants to make your school system aware of services we provide that could be of great convenience to your students, parents and staff.

Our Coastal Health & Wellness mobile clinic can travel to your school(s) to offer services like sports physicals, immunizations, hearing and vision screenings and more. These services could be of significant benefit as they would allow a central and convenient location for parents to bring their children. Our mobile clinic is able to provide on-campus sports physicals for student athletes that do not require a parent's presence. These services are available at comparable rates.

We also provide a variety of health education resources on subjects like sexually transmitted diseases, food safety, air and water pollution, dental care, communicable diseases, and more. Our resources could complement course material by providing demonstrations on things like proper hand washing, the effects of pouring fats, oils and grease into drains, beach water quality testing, air and water testing, and more. There is no fee associated with these educational resources.

We also have certified counselors available should your counseling staff need such assistance following significant emotional incidents that affect your students.

We look forward to exploring opportunities for the Galveston County Health District to collaborate with your school system to offer convenient services and educational resources that affect the health of our community.

For more information, please contact Coastal Health & Wellness Director Mary McClure at (409) 938-2336 or mmcclure@gchd.org, or GCHD's executive assistances at ExecAsst@gchd.org.

Sincerely,

A handwritten signature in blue ink, appearing to read "Harlan Guidry". The signature is fluid and cursive, with a long horizontal stroke at the end.

Dr. Harlan "Mark" Guidry
Chief Executive Officer
